Culture was everywhere, no longer the property of the cultured or the cultivated. Radical social movements around the globe invented a politics of culture. Culture in the age of three worlds is a reflection on this cultural turn, which was a fundamental aspect of the age of three worlds that short half-century between 1945 and 1989, when it was imagined that the world was divided into three: the capitalist first world, the communist second world, and the decolonizing third world. Recasting the legacies of British cultural studies and the radical traditions of the American studies movement in a global context, Michael Denning explores the political and intellectual battles over the meanings of culture, addresses the rise of a distinctive American ideology, and charts the lineaments of the global cultures that emerged as three worlds gave way to one.
